And... *famous cross country area Seefeld*

Internationally known as the "Capital of the Alps," two time host of the winter Olympics games in 1964 and 1976 and one of the greatest ski cities in the world, the capital city of the Austrian Tyrol is just that – a city. That it just happens to be surrounded by some of the best skiing in Austria makes it a premier destination for those who seek a broader European experience than simply skiing. Nestled into a narrow valley beneath rugged mountain peaks, it offers both beauty and culture with Old-World charm, rich museums and galleries with easy access to the country's world-class ski resorts
